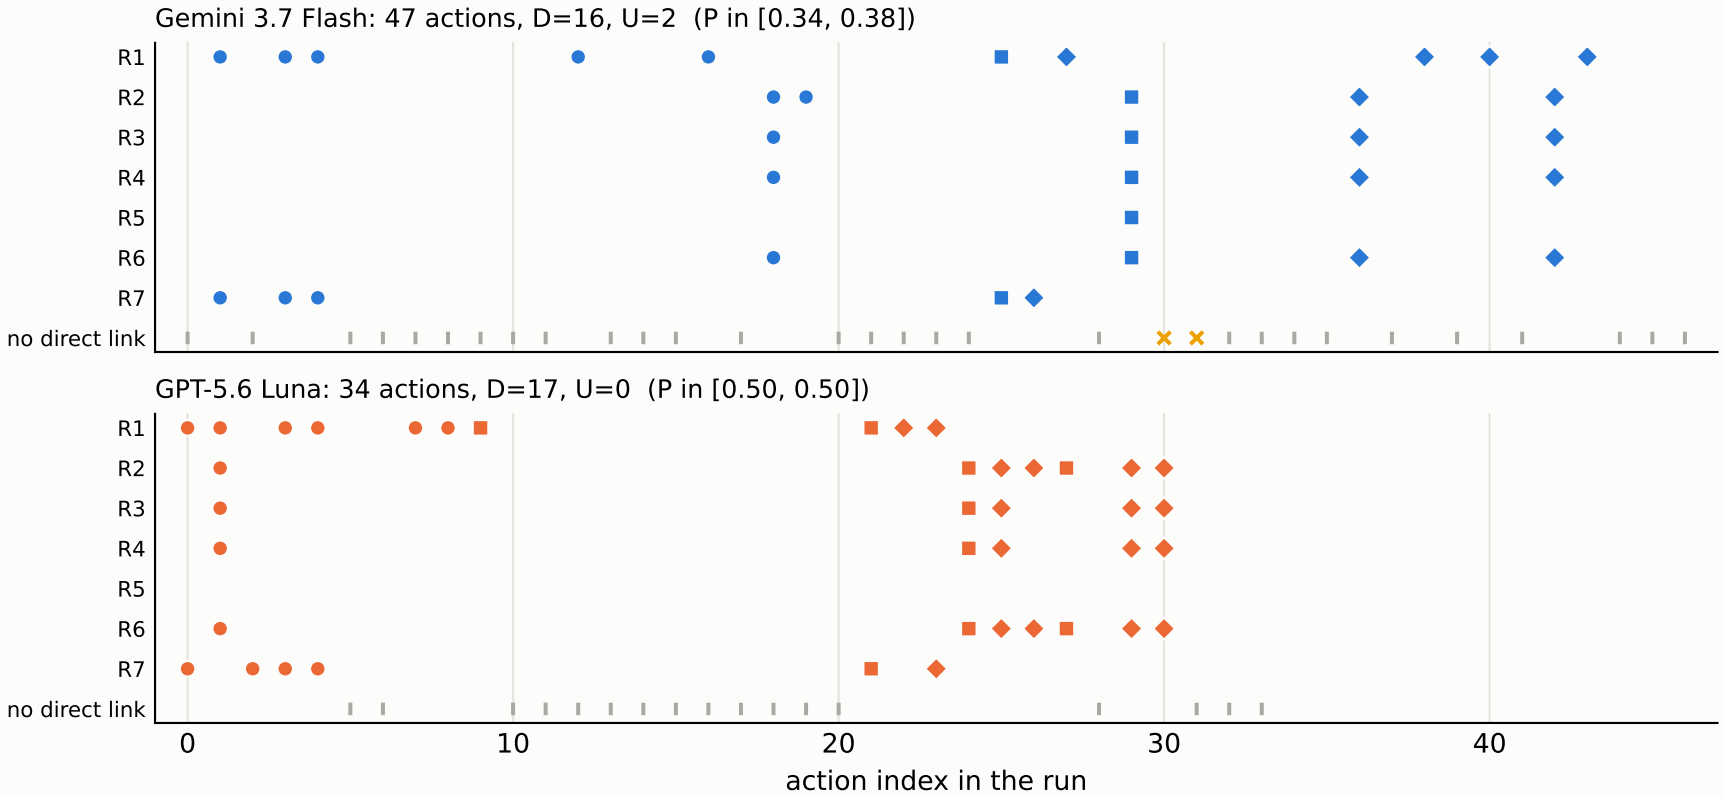
Trajectory-to-requirement links, median-gap example (task 6: flipt-967855b429f749c28c112b8cb1b15bc791…)



Marker shape: circle = exploration, square = edit, diamond = verification; a direct action appears on each requirement row it supports. Bottom row: non-direct (grey ticks) and uncertain (amber x). Model-coded, preliminary.
